October 2018

“If you have a garden and a library, you have everything you need.” – Marcus Tullius Cicero

EDITORIAL

Hello everyone,

As I was sitting here wondering what to write for this editorial, inspiration hit me. I know, I'll talk about politics and religion! Just kidding.

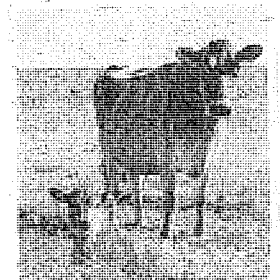

I am Jonathan Roessen. My family and I moved to Eureka back in June 2017. We started our first ever contract milking job. It was scary and exciting at the same time. We milk 400 cows through a 20 aside herringbone, so starting at 3.30am is part of the daily ritual. I apologise for waking my neighbours up the loud drone of the machines. I employ one other person to help out - my brother in law Stephen Low. He started this year with me about June. His wife Stacy and their children help out too, so many hands make light work. My wife Rachel, and I have three children, 2 boys and 1 daughter.

Mark, our oldest at 18 is out by himself, farming (unfortunately following Dad's footsteps). Then we have Jasmyne. She is the apple of Daddy's eye. She is attending Hillcrest High in year 10 or form 4 for us slightly less younger people. Then I have my little trouble maker, Dominic. He is 11 years old and attends Tauwhare School. He is my big help on the farm when things get busy. We as a family have been farming around Morrinsville and Hamilton for the last 10 years. My wife and I have been around farming for about 25 years. I had a break from farming and drove trucks around the North Island for about 8 years, doing most everything from logs to heavy haulage. I liked delivering concrete products for Humes with the Hiab. That took skill and took me around most of the Island. After Dom was born we decided to come back to farming, so I could spend more time with the kids. We enjoy a relaxed lifestyle full of family time, BBQs, fishing, water skiing and speedway. We are enjoying living in the area and hope to stay here for a little while. The kids love the schools and are making friends. The wife loves being so close to the shops for easy spending.

So, as I write this, the sun is shining, my cows are lazily sitting, chewing their cud and birds are chirping. It makes the job just so much more enjoyable. As this time last year, we were in dire straits with the weather. Our poor cows had to have snorkels to eat the grass (what there was of it). And I know we weren't the only ones who struggled. But I'm happy to see everyone is in slightly better shape around the area and are smiling a bit more.

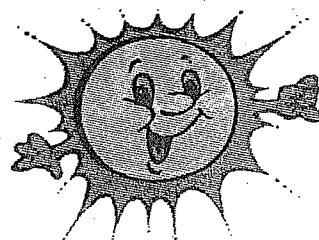

Anyway, I would like to say a big Hello to all my neighbours and surrounding area and if I see you, I'll probably wave out.

Jonathan

RAINFALL

Weather for September 2018		
Rainfall total	40.2 mm	
Rain Total for year	807 mm	
Rainy days	10	
Most daily rainfall	19.6 mm	2 nd Sept
Highest wind speed	51.5 km/hr	25 th Sept

Temp low	1.8 C	10 th Sept

SNIPPETS

DONATION THANKS TO: the Tauwhare Indoor bowling Club.

GOLDEN WEDDING CONGRATULATIONS TO: Ivan and Kaye Billings who celebrated their 50th Wedding Anniversary on October 12th, having married in Thames in 1968. Hearty congrats to you both and may you celebrate many more good years together.

WELCOME TO EUREKA TO: Jason and Victoria Ford and daughters, Daisy and Maggie who are now residing on Tauwhare Road. A warm hello to you all.

AND A BELATED WELCOME TO EUREKA TO: to Amy and John Elworthy and their two children, Samuel,8, and Zoe,6, who are living on Hunter Road on Eureka Orchard. Amy (nee Insoll) and John had been farming in Culverden prior to moving back north, and John is presently working for NZ Grazing. The children are at Newstead School. Lovely to have you back in Eureka, Amy, and sorry about the belated, but none the less very warm welcome to you all.

EUREKA PHONE LIST: Please find enclosed your updated phone list with thanks to John and Sue Marshall for its compilation. Please contact John and Sue, 8241141, or Gail, 8241758, if you notice any mistakes or omissions. Or if you have cancelled your landline please make contact if you wish to have your mobile listed. Unless you tell us we have no way of knowing mobile numbers.

EUREKA'S LITTLE LIBRARY has arrived! Back in February, you may recall, we announced that the WDC Placemaking Team had initiated a 'Little Libraries' project with prisoners at Spring Hill building and decorating 30 of these Little Libraries for Waikato communities.

Well, finally, Eureka's Little Library has arrived. (See Cover) It has been erected at the hall, out of the weather and, local readers of all ages you may now borrow and/swap a book to your heart's content. Enjoy!

TAUWHARE INDOOR BOWLING CLUB

Welcome to the October club news.

The end of the season has arrived and the only news to report is that we held our Christmas tournament last week. The winning team was from Matangi and skipped by Linda Mills and the runner up team came from Taupiri.

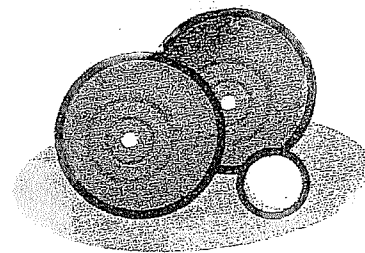

Many of the Tauwhare players have had great success this season both within the club and also entering into other clubs' tournaments as well as Waikato tournaments.

If you are considering playing bowls next year and wanting more information then do not hesitate to contact one of the following people:-

Jim and Rosalie Arnold 07 887 4832

Bev Meads 07 824 1941 or 021 172 7822

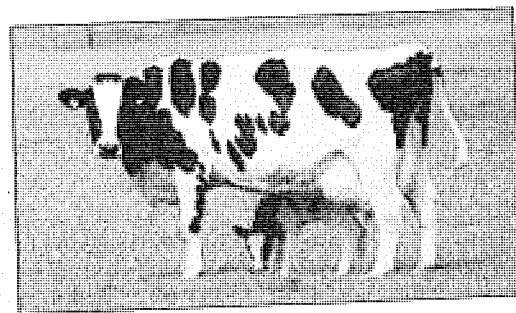

Kevin Williams 07 824 0728

This will be the last of the bowls news for this year and we look forward to seeing you all again next season and hopefully some new members.

Hope you all have a great Christmas and New Year.

MARKETPLACE

RELIEF MILKER AVAILABLE: Very experienced, Reliable, Flexible. Please phone Frank 8241897 or 0276758845 or 0274241897

Cost: \$30 per session (50 mins)

Venue: St Andrew's Church lounge, Tauwhare Village

Preferred times: Thursday and Friday afternoons.

Pukeko Country Preschool

Thank you to all those who have been a part of planning our new preschool, it is starting to look so cool and we can't wait to see the amazing spaces being used by our tamariki. Every day the children take joy in watching the building take shape and interpret what they see in their own play. Here, the boys have had a site meeting and decided that everyone must wear steel capped boots (gumboots), builders high-vis shirts (a t shirt with a motorbike, digger or car on it) and a hard hat to keep you safe on their work site. They are also showing an interest in taking their own photos of the builder's progress. We have also been busy this month with Shake Out the national earthquake drill and Calf Club where the children showed their animals and enjoyed meeting the animals from 'Sam and his Farmacyard Friends'.

About Pukeko Preschool

We are a small rural preschool situated in the grounds of Tauwhare School on Scotsman Valley Rd. We are open from 8am – 4pm and licensed for 17 children. Session times are 8.45am – 1.00pm, 8.45am – 2.45pm, or choose your own hours for bookings over 6.5 hours. We welcome children from 2 years of age. They need to be toilet-trained (or close to it) as we do not have nappy changing facilities (we will have these in our new centre).

Limited spaces are available – call in and see us, phone 824 0860, or email pukekopreschool@xtra.co.nz. We offer 20 hours Free ECE (NO extra charges for these hours) and you may also be eligible for the childcare subsidy. Contact us for more information, check out our website www.pukekopreschool.org.nz, or find us on Facebook 'Pukeko Preschool in Tauwhare'.

Our new centre will be open from 7.30am to 5.30pm and will be licensed for seven under-2s and twenty-three over-2s. We are looking at opening early 2019. If you would like to put your child's name down, please contact us now to get on our waiting list.

Tauwhare Playgroup

Well we are into Term 4 already after two weeks break over the school holidays.

We participated in the New Zealand Shake Out on our first session back. It was great to see how well informed the children were about what to do in the event of an earthquake. A good reminder to make sure your family are prepared in case of an emergency.

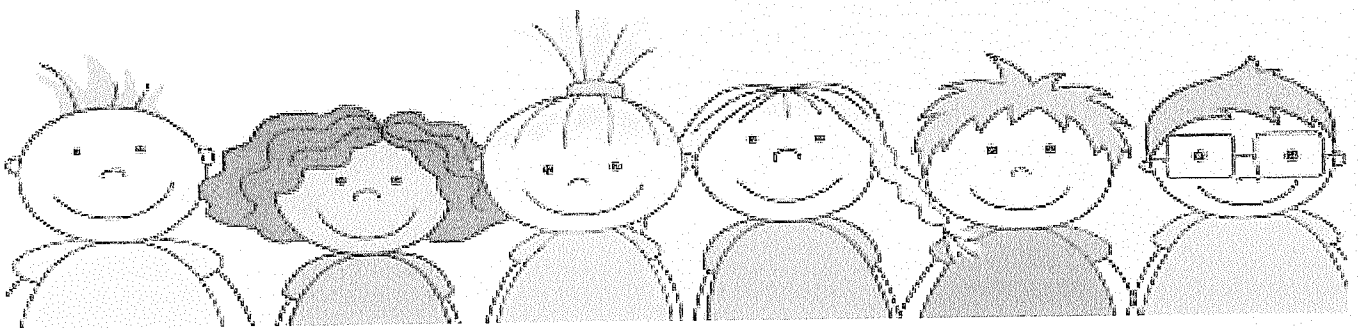

We were recently involved in a Kiddikutter fundraiser which had lots of interest, and raised over \$300. These kutters are a great way to get the kids involved in food preparation. A big thank you to everyone that supported us and made a purchase.

With the hope of finer weather to come in the next few weeks, we will be having more outdoor activities planned so make sure you keep up to date with what we are up to via our Facebook page as this is updated weekly with proposed activities or outings.

We are also on the lookout for anyone who would like to help co-ordinate some playgroup sessions. Please let us know if you are interested, even if its just one session a month, we would love to hear from you. Or if you have any ideas that you think our playgroup members would enjoy, please let us know.

Tauwhare Playgroup is a friendly and fun group where babies and children with their parents, grandparents, and caregivers meet in a relaxed environment. We meet at Tauwhare School's multipurpose room between 9am-12noon every Thursday during term time. You don't have to stay all morning, you are free to arrive and leave when it suits you. We hope you can come and join us, even if it is only for half an hour or so, to say 'hi' and have a play. We would love to see you. Please bring a small plate of food for the children's shared morning tea. Hot drinks are provided for parents and care-givers.

Any questions, please contact Kim on 027 765 1020.

TAUWHARE COMMUNITY MARKET DAY

Saturday 1 December 2018

8am-12pm

Tauwhare Hall

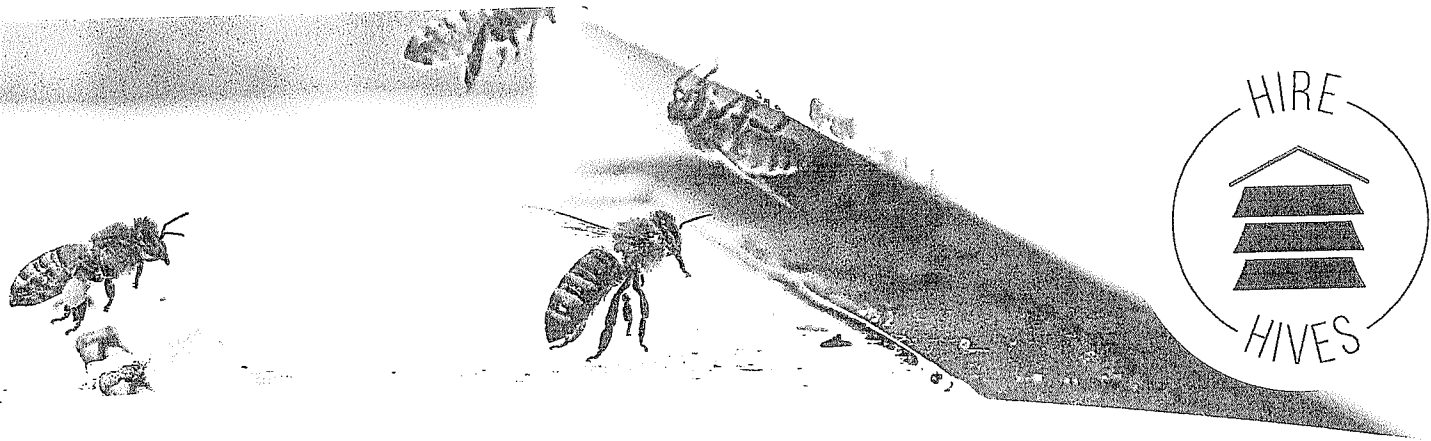

New, second hand, homemade /
handmade items

A FUNDRAISER BY PUKEKO PRESCHOOL TOWARDS
OUR NEW BUILDING

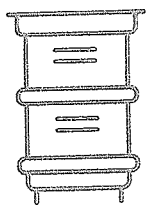

Beehives in your garden or at your workplace

We believe that keeping bees is much more than harvesting honey. Bees connect us with our natural environment, with the weather and the seasons, and best of all they bring such pleasure.

Based in Matangi, Hire Hives will rent you a fully managed hive enabling you to enjoy bees without the commitment of investing in gear and caring for them yourself. A fully managed process carried out by trustworthy, responsible, trained and registered beekeepers.

A RENTAL PACKAGE TO SUIT YOU

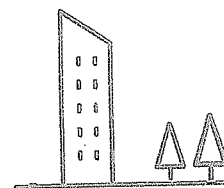

Options for one or more hives at your home or workplace

Share a hive with a friend, a neighbour or a business

Sponsor a hive for a community group or as a gift

Rent to own Rural or urban

Enjoy natural unprocessed honey harvested from your own place

Email hello@hirehives or visit www.hirehives.nz for all the details

Zenders

Café & Venue

Our Place. Your Place

The much anticipated Zenders Café and Venue is nearing completion, making its mark on Ruakura Road, Newstead. Modelled on a Dutch *Boerderij*, it is a replica of the Reymer family's great-grandfather's farmhouse in Gelderland, Netherlands, and will specialise in quality European styled foods, locally sourced. It is scheduled to open on 1st December 2018.

We are already taking bookings for Christmas parties, and family functions for 2019. So, if you have a special occasion you want to celebrate, come and see us sooner rather than later.

A coffee cart is operating onsite, giving you an excuse to come and see us, and see what is going on.

We are open Monday to Friday 7:30am to 1pm at 439 Ruakura Road. Alternatively, visit us on www.zenders.nz or on Facebook: Zenders Café and Venue.

TASTE BUDS

ASIAN SLAW

3oz grated broccoli stems
2oz finely chopped celery
1oz Red Bell Pepper finely chopped
2oz seasoned Rice Vinegar
1 tbs vegetable oil

3oz grated carrot
1.5oz chopped mushrooms
1 tbs chopped dry roasted peanuts
2-3 drops hot pepper sauce
1 tbs chopped Coriander

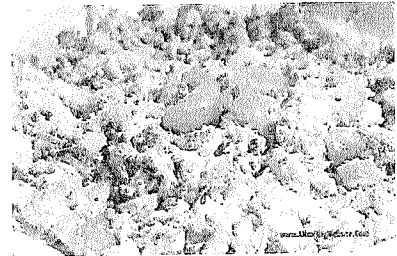

In a bowl mix dry ingredients.

In a small jug mix the wet ingredients and pour over the slaw, mixing well

PRAWNS IN TOMATO DRESSING

2 cloves of Garlic fine chopped
1oz chopped parsley
1 x 800g can chopped tomatoes
8oz spaghetti
500g prawns (more if required)

3 spring
onions chopped
1oz chopped basil
1oz Parmesan cheese
6oz white wine

Cook onion and garlic. Add tomatoes, wine, parsley and basil.

Cook gently for 25 minutes

Cook spaghetti. Add prawns and parmesan cheese to tomato and cook for a further 5 minutes on high.

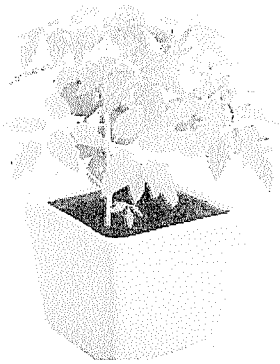

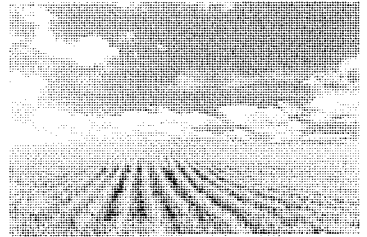

Mix all together and serve.

IN YOUR GARDEN

Hi - Mike from Roachs

The Rain has stopped, Silage is done, calving finished, Maize is getting planted before the dry spell settles in. Christmas is not far away. Have you got your summer veges planted and ready to harvest for Christmas etc?

Tomatoes are the most sought-after plant for the vege garden. If frosts are still likely in your area - example Eureka where we are still getting the odd frost. If you want ripe tomatoes at Christmas plant them into a good size pot. Keep outside; if the temperature is 3 or below move the pot plants into the garage or a safe place from the frost. When mid-November comes plant these mature tomato plants into your vege garden and you will have tomatoes by

Christmas.

At Roachs we have a large selection of vege plants, herbs and potted colour.

This week we have all 2-year-old fruit trees for only \$17.00 these were \$35.00. All double grafted fruit trees, deciduous trees and flowering cherry etc were \$45.00 now \$20.00. All trees 2 and 3 years old and good quality.

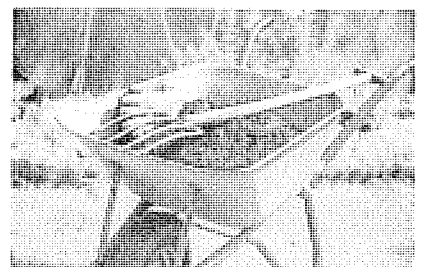

All rose plants discounted on numbers purchased. Hedge plants and any other plants you are needing in large quantities we can source and get a price for you.

Remember our quality compost is weed and bark free (organic). Our SPECIAL for this season is stable compost (dry) at \$20.00 a scoop. That's \$60.00 per metre. Bring your trailers.

We are here to help with all your gardening needs.

If you are looking for a part time job in the nursery industry, please phone Mike now and we can have a chat.

For our tree sale we are here from 8am till 4pm weekdays and weekends by ringing Mike on 0274 955 183 to make a time.

Happy Gardening - Mike

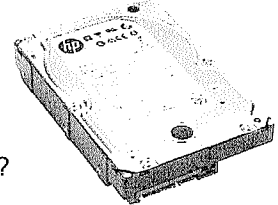

Pet peeves of a computer technician

This is going to be essentially a gripes article. Hey, everyone gets one right? In every single profession there's stuff that most non-experts get wrong. I wouldn't have the faintest clue about all the things I'm getting wrong about my car, or even about the cereal I eat in the mornings. So, don't take it personally, but listen up, you might learn something useful:

1. Your computer is not a hard drive.

Okay, here's what a hard drive looks like:

It's a small thing that sits inside the computer and stores all your documents and every program the computer runs. That box sitting on the floor with the power button? Not a hard drive. It's a desktop computer. I wouldn't say I'm bothered by this, it just makes communication tricky.

2. "High performance" power mode in Windows does not do what you think it does

I see a lot of computers configured by amateur enthusiasts who see this setting and think "Oo I'll get some more performance". Unfortunately it does not work that way. All this feature does it turn off the ability for the computer to save power when it's not doing anything. It doesn't speed anything up, nor is it useful outside of a few very specialised scenarios that the average computer user and gamer will never come across. The default power mode is best for the majority of computers.

3. Google is not a web browser

This one's understandable. When people click on their web browser, the first thing they usually see is the google search page (or possibly the bing search page if they're using a microsoft browser). Also, for reasons unknown to us mere mortals, most web browsers have taken away the name of the browser at the top of the screen when you run it – unlike most other computer programs. And in the past ten years Microsoft removed, again for unknown reasons, the name of the program from the bottom of the screen. Very stupid. So people generally don't know what web browser they're using when I ask them, they just "go to google". Fair enough. Here's how to know what web browser you're using: if you click on a blue "E", it's either Internet Explorer or Edge. If you click on a red-green-yellow circle logo, you're running Chrome. If you click on an orange and blue circle logo, you're running Firefox.

4. You absolutely totally actually do have a password for your email, honest!

This one is also understandable. When you enter passwords for websites into your web browser, it tends to remember them for you, so it will already be entered the next time you visit that website. But also, websites can store a little bit of information on your computer called a 'cookie' that, amongst other things, stores your login details. So sometimes you don't even have to log in to check your email, it just takes you straight there. But eventually you're going to need that password again.

This one always catches people out when they move to a new computer or the old one has problems, or their email gets hacked. You have a password, but you probably didn't write it down. So I recommend to people that they have a notebook separate to their computer that they write down all their websites, usernames and passwords in, immediately after creating them. This means, when the inevitable occurs – and it will occur – they can get back up and running in no time, rather than going through a 15 minute process, or losing access to their email entirely.

Alright, that's enough, I swear I'll have something more positive to chat about next article. Be smart, be safe.

Waikato Home PC Support

What Killed the Calf?

The calves are doing well and suddenly you find one dead in the paddock. What could it have died of? At this time of the year there is quite a list.

Blackleg: Causing destruction of an area of muscle somewhere on the calf's body with the resulting toxins causing death.

Treatment: None, always fatal.

Prevention: Vaccinate with clostridial vaccine.

Clostridium perfringens: Causing a massive intestinal upheaval.

Treatment: Always fatal.

Prevention: Vaccinate with clostridial vaccine

Gut problem: Can be many causes, such as a "twisted" gut.

Treatment: Maybe surgery in rare cases.

Prevention: None — just one of those things.

Salmonella: Not seen often but will cause major problems with diarrhea.

Treatment: Antibiotics if recognized soon enough.

Prevention: Vaccinate with salmonella vaccine

Yersiniosis: A gut invader similar to salmonella.

Treatment: Antibiotics if recognized soon enough.

Prevention: No vaccine available. Ensure animals do not get stressed.

Bloat: Eating too much grass and/or clover too fast.

Treatment: Bloat drenches, paraffin oil or if too bad, stab on the left-hand side.

Prevention: Bloat oils in water trough or make sure they always have plenty to eat.

Thiamine Deficiency: Causing rapid destruction of the brain — rapid death within 24 hours.

Treatment: Intravenous thiamine injections and corticosteroids. A dramatic recovery is possible if minimal brain destruction has occurred.

Prevention: Exact cause unknown so difficult to recommend prevention.

Bovine Viral Diarrhoea (BVD): If the calf was a carrier of the BVD virus and then is infected for a second time with a different strain of this virus then death may occur within a few days or it could linger for a month before dying.

Treatment: None.

Prevention: Vaccines are available but not always useful. The virus is widespread in New Zealand and you would need to talk to a vet to decide if vaccination is appropriate in your circumstances.

Listeriosis: Sometimes associated with feeding molding feeds such as silage — the animal initially starts showing nervous signs like circling.

Treatment: Antibiotics can be successful if given early enough.

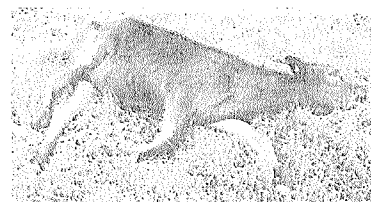

Prevention: Can reduce the risk by not feeding moldy hay.

Pneumonia: Often found dead or hunched over breathing rapidly.

Treatment: Antibiotics if get there soon enough.

Prevention: Make sure you have healthy well grown calves

As you can see from the above list, which is quite extensive but by no means complete, there is quite a list of diseases. If you find a dead calf which is still fresh it may be worthwhile getting a post mortem done as some of the diseases are preventable.

NEWS FROM YOUR WAIKATO DISTRICT COUNCILLOR

In my last newsletter I mentioned the end of free access to Hamilton City libraries for Waikato District residents – thank you for all the feedback I received. We put another proposal to the City Council this month but unfortunately the city rejected the proposal but acknowledged our cross-boundary connections and said it would initiate wider cross-boundary discussions with WDC. Our CEO Gavin Ion in a recent press release commented that *People don't think about territorial boundaries when they go about their lives, whether visiting Hamilton Gardens (Hamilton City) travelling to Raglan or the Hakarimatas (Waikato District) or popping out to Lake Karapiro to swim or water ski (Waipa District) These are all highly valued and visited regionally-used assets and to be fair libraries are similar.*

We will continue to work with the city with cross-border collaboration but in the meantime our Council is working on a proposal for library access for our residents. The Councillors for the four Wards around the city, Eureka, Tamahere, Newcastle and Hukanui, will have input into the WDC proposal. I voted to retain the current arrangement when it was originally debated as I felt we were getting good value for money and the feedback Councillors received after the decision was announced endorsed my stance.

Eureka has, with 30 other rural communities, joined the Little Library scheme. The hall committee has placed the Eureka Little Library in an excellent spot at the front of the hall. I note in this month's issue of WDC *Link* newsletter that *if you take a selfie with one of our little libraries, tag a friend and share it on our new Waikato Placemaking Facebook group Creative Spaces Waikato, you'll go into a draw for one of our two \$50 book vouchers (You have to live in the Waikato District to win).*

Matangi District has received funding from Council's Heritage Fund to create a Roll of Honour for those from the Matangi District who died on service or were returned servicemen in WW1. (I note names of men from families now in other districts in Eureka Ward are listed). On Remembrance Day 11th November at 11am the Honours Board will be dedicated. The names on the Honours Board can be found in the Matangi Link <https://matangilink.nz/2018/10/11/matangi-100-years-ago-was-your-family-here>. The Committee would like to know of any relatives of those on the Roll of Honour and who will attend the dedication. Phone Ian Wallace 829 5848 to let him know.

The Huntly Section of the Expressway is on track for a 2020 completion. This 15.2km section, which takes SH1 across lowlands and over the Taupiri Range, is being built out of public view. If you are interested in this section of the expressway, NZTA are hosting their first public information day on site on Saturday 27 Oct. Starting at the site office off McVie Rd, Huntly East between 10am and 2pm.

To ensure the Southern Districts Water supply has good water reserves to cater for unforeseen shut downs from the Hamilton City supply we have asked staff to progress the new water reservoir. NZTA have agreed that we can site it on surplus expressway land around Matangi.

The plans for the Hamilton to Auckland start up passenger rail service continue. Our Council is supporting train stations in Tuakau and Huntly and have committed to cost share funding with NZTA. I understand that the carriages for the train service are being revamped – I'll keep you up to date with progress.

Thanks to those who made a submission to the Proposed Waikato District Plan, which closed on 9 October. Council is now summarising the submissions which will be published. After a period for further submissions the hearing process will begin.

I frequently receive phone calls about rubbish dumping. This is a huge problem in the district and I note that last year 746 requests were received to collect rubbish. We have now set up a *Let's Stop the Dodgy Dumpers* Facebook Group -<https://www.facebook.com/groups/dodgydumpers>. You can also report dumping online or phone 0800 492 452. For safety reasons do not touch any dumped material.

Contact me anytime - Rob McGuire:

ON THE LIGHTER SIDE!!

MY MEAN MOTHER

I HAD the meanest mother in the world!

WHILE other kids had lollies for breakfast

I had to eat cereal, eggs and toast.

While other kids had cans of drink and chips for lunch

I had to have a sandwich.

Even my dinner was different from other kids.

I had to eat it at a table, and not in front of television.

MY MOTHER insisted on knowing where we were at all times.

She had to know who our friends were,

Where we were going.

She even told us what time to be home.

MY MOTHER actually had the nerve to break child labour laws.

She made us wash dishes, make our beds

And even learn to cook.

AS TEENAGERS our lives became even more unbearable.

Our old-fashioned mother refused to let us date - before we were fifteen.

She insisted that girls in our family be met at the door,

Instead of tooting the horn for them to come running.

SHE REALLY raised a bunch of squares.

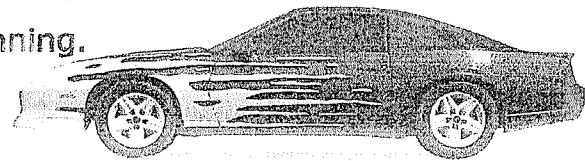

None of us kids were ever arrested for shoplifting,

Or busted for dope.

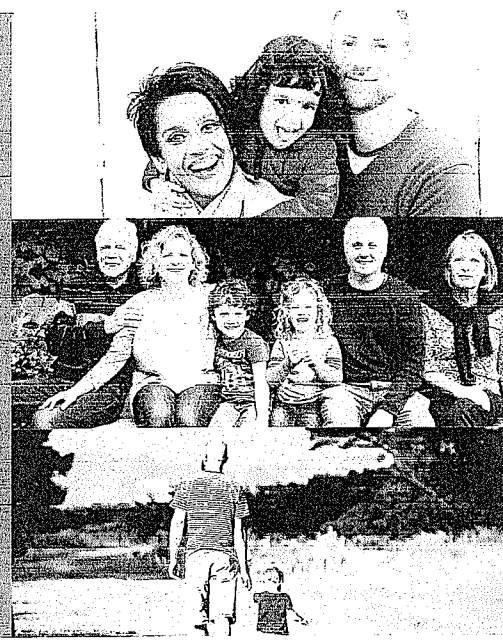

And who do we thank for this?

You are right - **OUR MEAN MOTHER!**

WHAT OUR country needs, is more mothers like mine.

HELP CHANGE YOUNG LIVES FOR THE BETTER

Fostercare Opportunities in Waikato, Hauraki and Coromandel

- Caring for a child in your own home
- Financial support, level reflective of child's complexity
- Generous allowances
- On-going training available
- Clinical supervision from a team of social workers or psychologist.

We are looking for people from all walks of life: couples, singles, families, city and rural dwellers. Providing connections to culture is vital so we are looking for caregivers for a range of cultural backgrounds, who can provide care for children aged 8 to 18 years who have experienced loss and trauma in their lives.

The types of care our children need are:

- Daytime care
- Home for life
- Respite care
- Long term
- Weekend care
- Short term
- Emergency overnight care

What do you need to be a caregiver?

There is no certificate that says you would make a great caregiver. Most importantly you need to have:

- an empathetic nature
- tolerance to cope with distress
- be a good listener
- be able to work as part of a team
- a full driver's licence preferable
- good health
- good relationships with others and have ability to develop a relationship with the child.

Voice of a Child:

Children are our future. In order to ensure positive outcomes for kids like Connor below, they need to feel safe, loved and cared for, by people like you.

"Oranga Tamariki placed me and my brother with a couple, who took us in and cared for us. In the first two weeks I had tantrums and would rip up my clothes, but they didn't give up and I could see they really cared about me. They made sure I got to school on time, took me on family holidays, gave me my first birthday party and even took me to my very first soccer game. Fifteen years later, I have a job and my own place and can honestly say that if it wasn't for my carers, I don't know where I would be."

– Connor, 27.

MURRAY

MONO PITCH, ENCLOSED OR OPEN TO SUIT

Classic mono-pitch roof style, if that's your preference.

TESTIMONIAL

"We got a No Bull kitset from Waikato Sheds and were able to put the shed up ourselves. The team were a huge help working out what we needed, and then with advice when it came time to put it up.

We had some 'must haves' for the shed. With other shed builders there was a lack of flexibility in the design. Working with Waikato Sheds made the whole thing very simple & kept us within budget."

*- Gavin & Leanne Jeffcoat
Eureka*

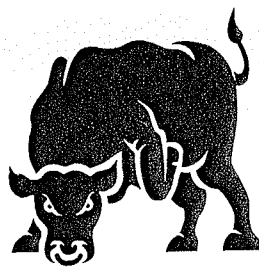

THE PRICE EXAMPLES FOR SHED KITS SHOWN BELOW ARE TO GIVE YOU A FEEL FOR COST.

Contact us to discuss your requirements and we'll price it for you.

NO BULL SHEDS®

About NO BULL SHEDS

NO BULL SHEDS was created by the Waikato Shed Company✓✓ who have been supplying and building sheds around the greater Waikato and beyond since 2005.

Every shed built by Waikato Sheds has been custom designed with some containing quality extras like Aluminium Joinery, Vermin Flashings, Bird Brushes etc. and to date the same shed design has not been repeated.

NO BULL SHEDS has been developed with the help of the Waikato Sheds Team, who are passionate about good quality sheds, to provide the same quality base components and design capability with a No Frills approach.

Now, customers can get top quality shed pack systems at the lowest possible prices without cutting corners.

The aim is to make the whole process as simple as possible.

NO BULL SHEDS is a 100% Kiwi owned and operated company and is an authorised distributor of the proven Fair Dinkum Sheds Group.

NO BULL SHEDS Provides

- 5 basic and popular shed styles to get started
- Price examples for shed packs with 2 - 3 sizes for each style
- The ability to customise the shed to suit your needs
- A basic shed layout is provided as a starting point to assist you to determine your requirements
